Kindergarten	9/2/2015– 9/1/2016	5 Days Monday – Friday	\$455.00

2021 -2022 Sneak Peek

APC Dayschool

Come grow with us!

Preschool, Parents Morning Out & Private Kindergarten

For ages 1 to 5 years. Limited space.

1 year old class

The 1-year-old classes are social based promoting a playful introduction into preschool. As with all classes for preschool it is designed for social and emotional growth. The class participates in age appropriate crafts, introduces letters, numbers, colors and shapes. The class follows a schedule with plenty of playtime while still promoting transitioning from activities and locations on campus.

Preschool, Parents Morning Out & Private Kindergarten

For ages 1 to 5 years. Limited space.

2 year old class

In the 2-year-old classes our main goal is to help your child experience a new environment, away from home. We will do our best to create a safe, loving, happy environment where children can play, explore and learn. Each month we will introduce a new color, number, shape, theme and a weekly letter. We will read books, sing songs, dance and play together, and work on art projects to reinforce themes and concepts.

For ages 1 to 5 years. Limited space.

3 year old class

The 3-year-old classes are academically-focused and socially-interactive, yet provide a fun and nurturing environment for children to grow cognitively, socially, physically and spiritually. We provide a 4-hour structured program that includes Free Play, Circle Time, Art and Guided Learning Centers. Weekly "specials" include Science, Music and Chapel. Schoolwide, we have recently implemented two new curriculums - "Handwriting Without Tears" - a curriculum that uses multi-sensory techniques and consistent letter formation habits to introduce handwriting ---and ZOOPHONICS - a language arts program using sight, sound and movement integration to engage young children of all learning styles. Of course, the children have plenty of opportunities for free play, an essential part of learning for a young child. Our program includes weekly themes that include everything from "Friends and Families" to "Dinosaurs" to "Weather", as well as seasonal topics. All of these elements create cognitive, language, math, motor and social skills building blocks to prepare the children for our Pre-K program.

4/5 year-old classes

In the 4-year-class we focus on Kindergarten readiness and developmentally appropriate skills-based learning while still nurturing the magic of being 4 and 5. We learn the tangible skills like letter recognition, formation, and sounds and the intangible like being a good friend, following directions, and independence. We use a variety of educational learning tools and engaging craft and science materials to make learning fun. Our numbers are small, 8-1 student to teacher ratio so the teaching is differentiated and individual. We are a Christ-centered school and that shows in our curriculum. We partner with families to instill a love of learning and often have a lasting relationship with current, former, and future students. We have recess, snack, lunch, science, music and attend chapel once a week while still leaving time in the day for families to have time to spend together or have playdates or gather afterschool on the playground. In the young fives class all of the above applies. This class is geared towards the student who needs an "extra" year to prepare for kindergarten. Those with a late Birthday or in need of extra practice of certain skills find this class a viable option to help create a successful transition to elementary school.
